

Getting to know your Amazon Tap

1. Charging your Amazon Tap

Plug the included charging cable and power adapter into the charging cradle, then into a power outlet.

Place your Amazon Tap on the charging cradle. Power on the device. A blue light will illuminate at the top. The lights will change to orange and Alexa will greet you.

Alternatively, you can charge your Amazon Tap by plugging the cable directly into the port on the back.

2. Setting up your Amazon Tap

Download the free Amazon Alexa app to your phone or tablet.

The app helps you get more out of your Amazon Tap. It's where you see an overview of your requests and manage your lists, news, music, and settings. Start the download process in your mobile browser at:

<http://alexa.amazon.com>

If you already have the Amazon Alexa app installed, go to Settings > Set up a new device.

During setup, you will connect your Amazon Tap to the Internet so you can access Amazon services. Please make sure you have your Wi-Fi password available. To get started, press the Wi-Fi/Bluetooth button for 5 seconds.

3. Getting started with your Amazon Tap

Talking to your Amazon Tap

Press the Talk Button and wait for the tone. Then talk directly to your Amazon Tap. See the Things to Try card to help you get started.

Setting up Bluetooth

You can use your Amazon Tap as a portable Bluetooth speaker that you can connect to your smartphone or tablet, at home or on the go. To pair your mobile device using Bluetooth, quickly press the Wi-Fi/Bluetooth button.

Checking the battery level

Press the Volume Up and Volume Down buttons at the same time to get the current battery status.

Give us your feedback

Alexa will improve over time, with new features and ways to get things done. Use the Alexa App to send us feedback or email alexa-comments@amazon.com.
