

Multisensor 6

Z-Wave 6-in-1 Sensor: motion, humidity, temperature, light, vibration and UV sensor.

Motion sensor. Humidity sensor. Thermometer. Light sensor. UV sensor. Vibration sensor.

Never before has one device so delicately-made. Never before has it provided you all-around protection. Multisensor 6 interprets smart in a brand-new perspective which will always furnish you a cozy and safe home.

The Aeon Labs MultiSensor 6 is a battery or DC powered (USB port), 6-in-1 Z-Wave sensor. It can be installed everywhere, in the corner, on the wall, on the shell or in the ceiling, etc.

Product highlights.

- 6-in-1 sensor: motion, humidity, temperature, light, UV and vibration sensor.
- Support battery power and DC input power. Battery: DC 5V 500mA, 2 x CR123A battery, which can let products work 2 years.
- Use Z-Wave 500 series chip.
- Optimized antenna range - 300ft Z-Wave RF range (outdoor), 80+ ft (indoor).
- Certified/Available for USA, EU and Australian markets (ETL, CE, RCM, FCC-ID, CCC,Z-Wave+).

Technical Specifications.

- Max motion sensitivity: 5 meters.
- Measured humidity range: 20%RH to 90%RH, accuracy: 3% RH at 25°C
- Measured temperature range: -10°C ~ 50°C, accuracy: +/- 1°C.
- Lighting: 0 lux to 30,000lux.
- Operating temperature: 0°C ~ 40°C
- Water proof: IP20
- Operating distance: up to 492 feet/150 metres outdoors.
