

Step 1

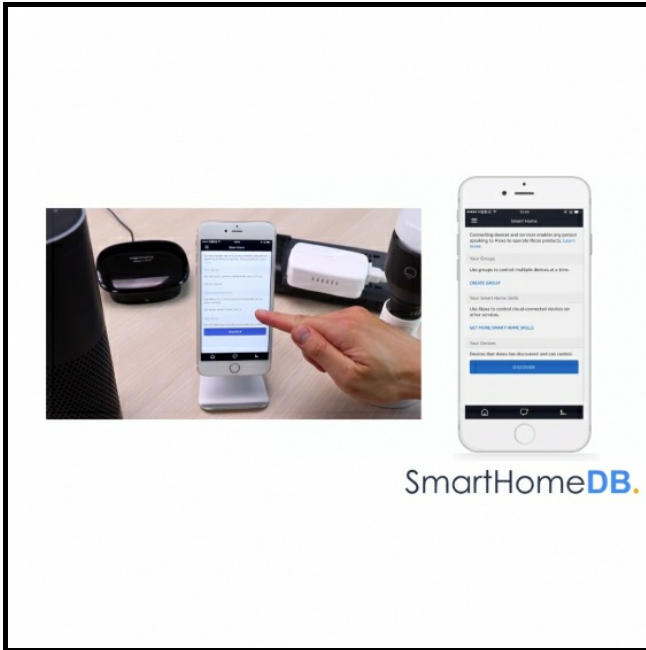

- Open the Amazon Alexa App on your mobile device.

Step 2

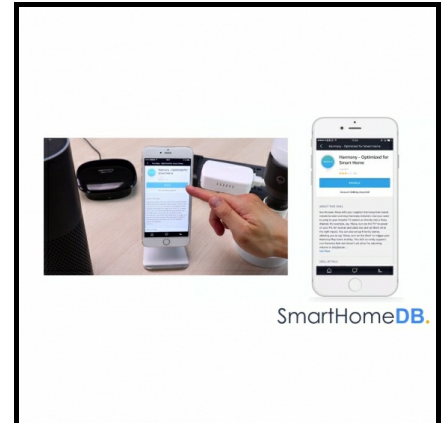

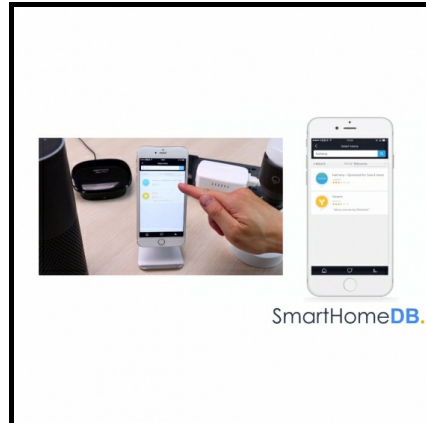

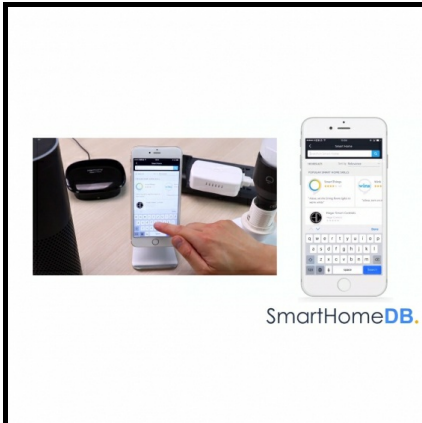

- Tap on the left top menu button.
- And in the menu tap on 'Smart Home'.

Step 3

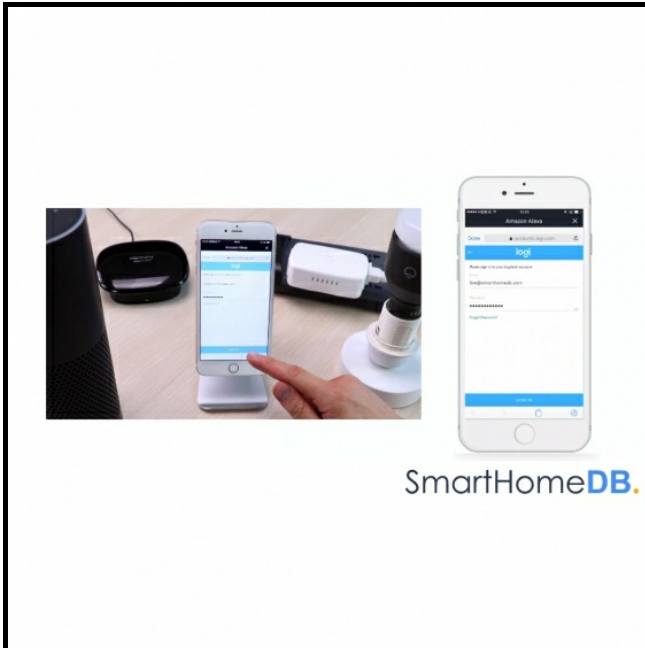

- Tap on 'Get more smart home skills'.

Step 4

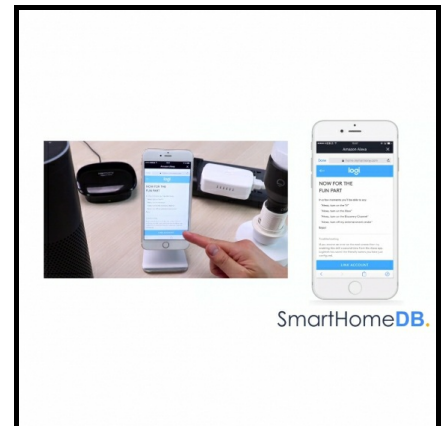

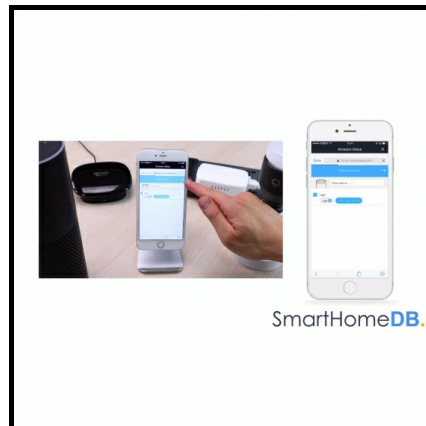

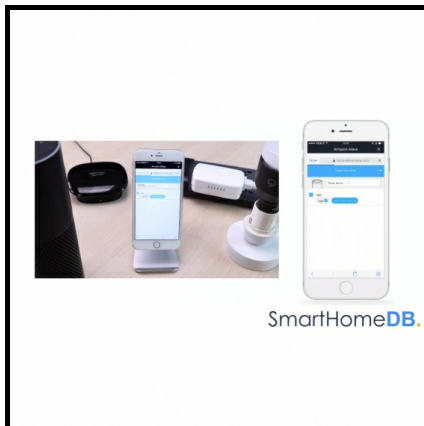

- Search for 'harmony'.
- Tap on 'Harmony'.
- And tap on 'Enable'.

Step 5

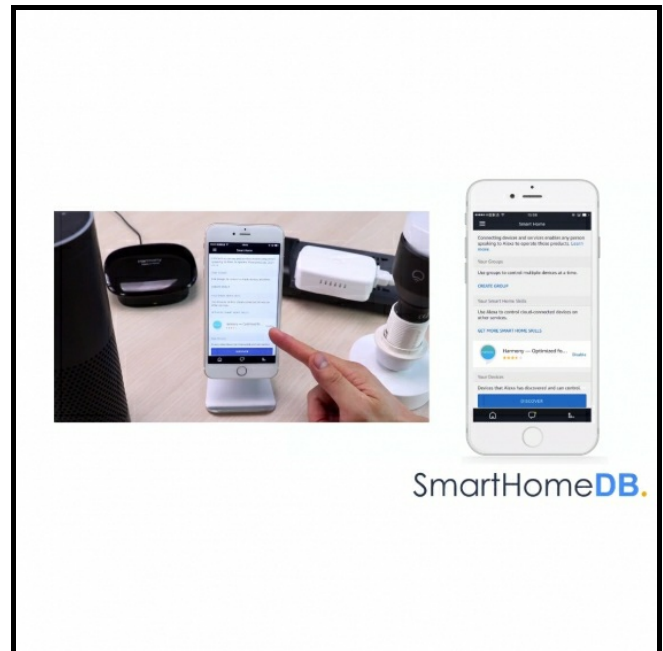

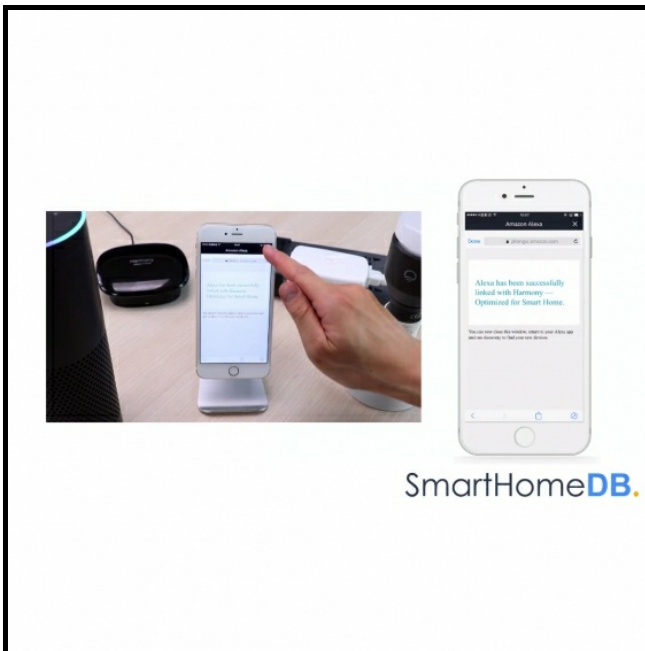

- Log in to your 'Logitech Account'.

Step 6

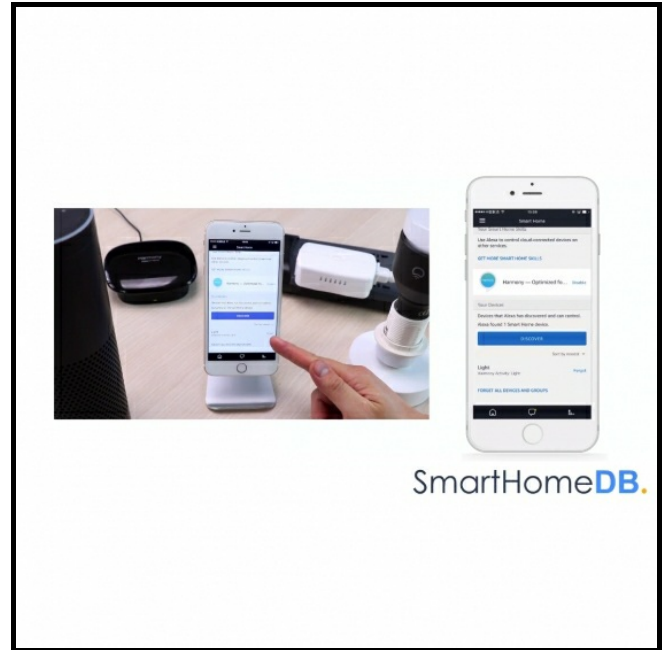

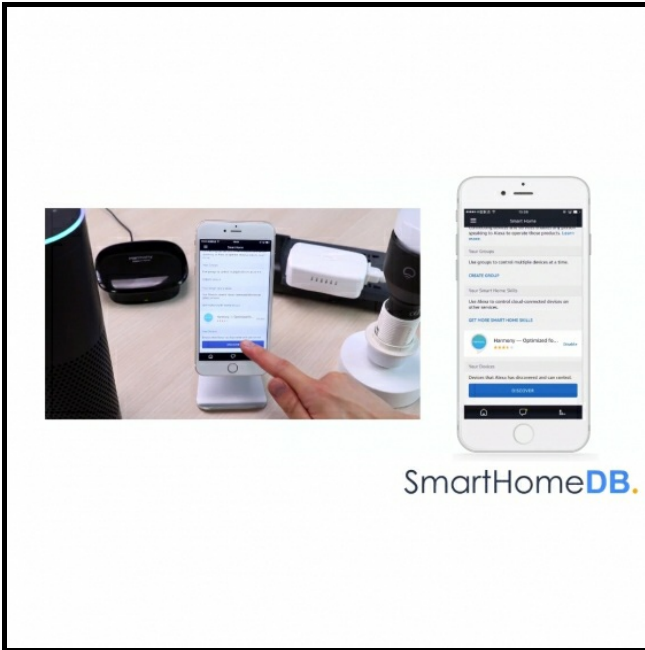

- Select the Logitech Harmony Home Hub activities you would like to link with the Amazon Echo.
- Tap on '->' next.
- And tap on 'Link account'.

Step 7

- You will get a success message indicating that 'Alexa has been successfully linked with Harmony - Optimized for Smart Home'.
- Close this window.
- In the Amazon Alexa App you will see that the Harmony skill has been enabled.

Step 8

- Tap on 'Discover'.
- You will see the Logitech Harmony Home Hub Activities you have linked with the Amazon Echo.
- You have hereby successfully paired the Amazon Echo with the Logitech Harmony Home Hub.
